Continuous Colour Coat Limited (Metal Koting) Is Now Material Sciences Corporation-Toronto

Canton, Michigan – Continuous Colour Coat Limited, doing business under the tradename Metal Koting, has become Material Sciences Corporation-Toronto. The name change reflects the consolidation of Metal Koting into the Material Sciences Corporation (MSC) team.

Pat Murley, chief executive officer of MSC, commented “With this rebranding, we present a unified presence in the marketplace that reflects our global leadership as a developer and manufacturer of material-based solutions for light-weighting, acoustic, architectural, coil coating and laminated applications. Our vision is to provide exceptional technology, expertise and service to our increasingly sophisticated customers. The superior capabilities of Metal Koting in electro-galvanizing, coating and printing are a perfect fit with other MSC business units in Illinois, Indiana, Michigan and Ohio.

“Kevin McCallum continues as president of Material Sciences Corporation-Toronto. His long-standing leadership of Metal Koting and knowledge of the metals industry is a valuable asset to the entire MSC family of companies and ensures a smooth transition.”

Noted Mr. McCallum, “We’re already seeing excellent synergies between Material Sciences Corporation and the former Metal Koting. As MSC-Toronto, we are opening up new markets for the entire MSC product line. Customer satisfaction is fundamental to the MSC business culture, confirming our reputation for delivering true value to customers throughout the automotive, construction, consumer products and electronics segments.”
